

Inspire Programme Offshore Europe 2017

Young Member Programmes

With thanks to our
Platinum Sponsors:

EXPRO

As part of the Inspire Programme, several activities are being run specifically for university students and young professionals. The aim is to help develop key skills and help inform you for future career choices. Our programmes are open to all OE attendees and have been organised by the Inspire Committee and the SPE Young Member Engagement Committee. Spaces are limited for our events to register your place please email yp@spe.org.

Career Pathways Fair - Mon 4 Sept (15:00 – 17:00) Forbes Room

It's never easy to determine your future career path, even when you're just reviewing your current one. Should you continue education, specialise or diversify to get ahead? The Career Pathways Fair invites students and new professionals to speak to established engineers one to one. This is your chance to ask the questions you really want to know to help you prepare and make the right career choice.

CV and Interview Skills Workshop - Tues 5 Sept (14:00 – 16:30) Room 10

With an Introduction from SPE President Janeen Judah, this workshop explores basic tips to help you make your CV stand out and presents yourself in the best possible light at an interview. We will explore your key skills and how to convey them in a professional setting. This session will also include group activities to put your skills into practice.

Emerging Engineers Forum - Wed 6 Sep (09:00 – 12:00) Room 10

Following on from the success of the Aberdeen Section's 2016 event, this session will offer you a fast paced round table discussion with the leaders of innovation in O&G sector. Join us to learn what it means to take an idea from concept to implementation in the O&G industry.

Oil and Gas: Expat-ations of living abroad - Wed 6 Sept (14:00 – 16:30) Room 10

Working and studying abroad is a huge part of the oil and gas industry and despite the impacts on a professional's career and personal life, little guidance is available for those considering the big move. At this event we will be sharing stories from those who have gone through the same process and explore some of the benefits and difficulties of diverse working environments.

Communication Skills Workshop - Tues 5 Sept (09:30 – 12:00) Room 10

This workshop invites students and young professionals to participate in a series of fun activities that can help you learn and develop skills vital to working in a global environment. Topics will include an introduction to communication styles and techniques as well as activities that will get you using them.

Making the most of your membership – Thurs 7 Sept (14:00 – 16:30) Room 10

The Society of Petroleum Engineers has an exhaustive number of Sections, Chapters and resources to take advantage of. This session will allow you to find out about what's available on an international and regional scale. You can also find out about SPE programmes and resources designed to get you ahead through networking as well as boosting your soft and technical skill set.

Please note changes to timings may occur, please check the website for the most up to date information or e-mail yp@spe.org
